Contra-indications to Hydrotherapy

By providing your veterinary consent you acknowledge that you have read and understood the below contra-indications of hydrotherapy and have taken note of the precautions that I also need to be made aware of.

Contra-indications

- Open, infected or draining wounds
- Active gastro-intestinal disease (vomiting and/or diarrhea)
- Dog is acutely unwell
- Recent deterioration in mobility e.g. can't walk, limbs not moving, N/WB on a limb
- Systemic compromise such as severe cardiac, liver, kidney disease
- Severe respiratory compromise or distress
- Advanced debility / frailty
- Uncontrolled epilepsy
- Contagious condition
- Tracheostomy
- Laryngeal paralysis
- Chlorine allergy
- Cytotoxicity (will need to wait 48 hours after chemotherapy)
- Unvaccinated / negative titers

Precautions

- Fecal incontinence
- Urinary tract infection (please advise if on current medications)
- Wounds that have been given the 'OK' - we will require written permission by the veterinarian
- Older age / frail patients
- Bitches in season
- Pregnant bitches
- Mild systemic compromise
- Extremely obese patients
- External fixators
- Skin problems
- Epilepsy
- Blind / deaf
- Aggressive dogs
